BHARGAV RANGANADHAM

LINKEDIN | PORTFOLIO | bhargav.naidu238@gmail.com | +91-8121627232

PROFESSIONAL SUMMARY:

- 5+ Years of industry experience in the area of Software Testing (Manual and Automation) with a solid understanding of **Test Planning, Test Design, Test Execution and Defect Reporting & Tracking. Experience in preparing Test Cases, Reviewing and Executing Test Cases.**
- Expertise in Understanding and Analysing **Test Requirements, Tracking changes and maintenance of Test Requirements.**
- Strong Experience in **Automating Web Application Testing** using **Selenium WebDriver** with TestNG framework.
- Strong Experience in **Java Programming, Selenium WebDriver, TestNG.**
- Writing Test cases using **Element locators, WebDriver methods, Java programming** features and **TestNG Annotations.**
- Well versed with Handling Elements in **Selenium WebDriver.**
- Executing Selenium Test Cases and Reporting defects.
- Experience in **Data driven Testing, Cross browser testing** and **Parallel Test execution** using **Selenium WebDriver, TestNG.**
- Strong Experience in **BFS, HealthCare, Retail and AWS Cloud Domains.**
- Involvement in Test Estimations and Test strategy implementation.
- Proficient in devising all the artifacts of testing such as **Test Scenarios, Test Cases, Defect Reports** and **Test Summary Report.**
- Self-motivated, energetic and highly ethical in all work-related assignments thus able to immediately contribute to corporate goals and objects.
- Good written, communication, interpersonal skills, proven team player with an analytical mind bent to problem solving and delivering solutions.
- Expertise in **JIRA, Confluence and HP Quality Center** for test management and Bug Life Cycle.
- Expertise in writing **SQL** queries.

CAREER SUMMARY:

- **Accenture, Bangalore** from Nov-2021 – Present.
- **Cognizant Technologies**, **Chennai** from June 2018 – Nov 2021.

EDUCATION:

- B. Tech (Electrical and Electronics Engineering) From JNTUA, Geethanjali Institute of Science and Technology, Nellore in 2017**(65.4%)**.
- Intermediate (MPC) from Krishna Chaitanya Junior College, Nellore, AP with an aggregate of **66.7%** in 2013
- Class X from ZP Govt High School, Nellore, AP with an aggregate of **72.8%** in 2011.

SKILLS:

Proficient in Selenium WebDriver, Maven, TestNG, GIT, Manual Testing and Concepts, AWS Cloud Concepts, MySQL and Jira & Confluence.
Familiar with Playwright, Python, HP ALM, HTML and API testing using POSTMAN.

TRANING PROGRAMS ATTENDED AND CERTIFICATIONS:

- **Certified in AWS Cloud Practitioner.**
- **Certified in Java-Selenium & SQL.**
- **Attended in-house training program on Selenium and Cloud concepts.**

KEY PROJECTS EXECUTED:

Project #1

Title   : **Velocity Fabric.**

Tools used   : **Selenium Web driver, Java, Maven, TestNG, AWS Cloud and Jira**

Description: Velocity allows clients to adopt Accenture and AWS innovations more quickly based on the learnings from thousands of Accenture and AWS projects. Together, these repeatable solutions help clients adopt new AWS services without recreating time-consuming, labour-intensive work and recurring costs at the start of every project.

Industry Group   : **AWS CLOUD**
Client   : **Velocity Fabric.**
Role   : **Senior Software Engineer**

Responsibilities:

- Developing automation scripts on the GUI cases and merging with shared repository
- Providing automation regression fixes for failed test cases
- Pulling the latest code using GIT on daily basis.
- Execution of test cases, logging of defects in defect tracking up to closure
- Retest defects and execute previously failed test cases accordingly if it is fixed in current build

Project #2

Title   : **Vodafone EMMA.**

Tools Used   : **Selenium Web driver, TestNG, Maven, SQL and Jira**.

Description: Vodafone GmbH is a mobile telecommunications operator in Germany mobile phone, LTE, 5G, cable internet, landlines, cable TV and IPTV services, Vodafone Germany's network serves both prepaid and post-paid customers on GSM and LTE and started providing 5G services.

Industry Group   : **Retail**
Client   : **Vodafone Germany.**
Role   : **Software Engineer**

Responsibilities:

- Regression testing performed on every new build of the application.
- Validation of failed test cases and Root cause analysis
- Developing automation scripts and merging with shared repository
- Providing automation regression fixes for failed test cases
- Pulling the latest code using GIT on daily basis
- Execution of test cases, logging of defects in defect tracking up to closure
- Retest defects and execute previously failed test cases accordingly if it is fixed in current build

Project #3

Title : **InterCom Plus.**

Tools Used : IC+, MySQL Server, Selenium, Java, Postman and Jira.

Description: InterCom Plus is a Walgreens HealthCare Application. It provides medical prescriptions to the patients. Here we used to check the entire end to end functionalities the application which provides services to the customers

Industry Group : **HEALTHCARE**

Client : **Walgreens.**

Role : **Programmer Analyst**

Responsibilities:

- Involved in understanding of the Requirements.
- Involved in Identifying areas of testing.
- Involved in creating and reviewing the test cases and updating the test case based on the review comments provided.
- Involved in preparing the test data.
- Execution of the functionality & Regression test cases in every build.
- Bug reporting and defect tracking using HP ALM and Jira.
- Involved in Ad-hoc testing the application.
- Creation of Test Report.

Project #4

Title : **Discover Banking Solutions.**

Tools Used : Mobile Devices, Postman, Jira, SQL and Software testing

Description: Discover Financial Services is an American financial services company that owns and operates Discover Bank, an online bank that offers checking and savings accounts, personal loans, home equity loans, student loans and credit cards

Industry Group : **BFS**

Client : **Discover.**

Role : **Programmer Analyst Trainee.**

Responsibilities:

- Involved in understanding of the Requirements.
- Involved in Identifying areas of testing.
- Involved in creating and reviewing the test cases and updating the test case based on the review comments provided.
- Involved in preparing the test data.
- Execution of the functionality & Regression test cases in every build.
- Bug reporting and defect tracking using HP ALM and Jira.
- Involved in Ad-hoc testing the application.
- Creation of Test Report.

CAREER ACHIEVEMENTS:

- Actively participated in Test Day, Test Phases and reported high priority defects.
- Got appreciation from client for handling mobile testing alone for 8 modules without any escalation and defect leakage.
- Participated in-house Innovation contest and provided two ideas as innovation and won the Innovator award along with Reward points and Award.

PERSONAL ACHIEVEMENTS/PROJECT CREATED:

- Created my own **Portfolio** to replicate myself using **HTML and CSS.**
- Solved More than **30+ Java Programs** in **GeeksforGeeks and LeetCode** and learning more the DSA Concepts.
